

Dear _____ Date _____

In school, we have been talking special events in the life of a family, like getting married and having children. Here is what we have been learning:

Love and Marriage

- When a man and woman marry, they ask God to bless them and help them to be a good husband and wife.
- One very important way husbands and wives may share their love is by becoming parents.
- We are here because of the special love of our parents and because of God's love.

Let's talk about this list together. Is there anything we should add to the list?
