

Date \_\_\_\_\_

Dear \_\_\_\_\_

In school, we have been talking about married love and sharing in God's power to create new life. Here is what we have been learning.

### Love and New Life

- When a man and woman marry they promise to love each other always and to try to be a good husband and a good wife.
- A mother and father share God's power to create new life. They each have life-giving cells that can unite to create a new person.
- Children are a special sign of the love between a mother and father.

Let's talk about this list together. Is there anything we should add to the list?

-
